

# Talview For Education

Digital Solutions For Admissions  
and Learning Continuity

# Flexible for Faculty, Mobile Ready for Students

Talview helps organizations and schools digitize their talent pipelines bringing unparalleled speed and efficacy to their sourcing, interviewing, admissions, and testing processes. Our online admissions and exam proctoring solutions give students the convenience they're so familiar with in their consumer lives.

## Challenges We Help You Overcome

### With Online Admissions

- ◆ Conducting Entrance Tests at Scale
- ◆ Facilitating Multi-Geography Student Applications
- ◆ Candidate Evaluation & Fitment
- ◆ Scheduling Mobile-Enabled Personal Interviews

### With Course Examinations

- ◆ Student Authentication
- ◆ Live and Automated Exam Proctoring on Any Device
- ◆ Browser Policing and Real-Time Alerts
- ◆ Integration with Existing LMS and Enrollment Tools

# Move Your Admissions Process Online

Student admission season is one of the most critical times of the year. Social distancing has made it even more challenging. Schools are also witnessing the influx of digitally native-Gen Z students who can't live without their gadgets. Moving to an online admission process can ensure your school stays ahead of the pack.

Let Talview's mobile-first technology expand your admissions reach.

## Why Talview For Admissions?

### Better Sourcing

Remote admission means universities have access to a wider student pool and increased applications.

### Multi-screen Workflows

Assessments and video interviews are available across devices making it convenient for test takers and administrators.

### Increased Accuracy

AI-enabled video interviews and assessments help eliminate human errors.

### Completely Secure

End-to-end encryption ensures data security and also maintains student privacy unlike common video.

### Zero Room For Fraudulence

Advanced AI facial & voice recognition and automated ID validation prevents cheating on entrance exams.

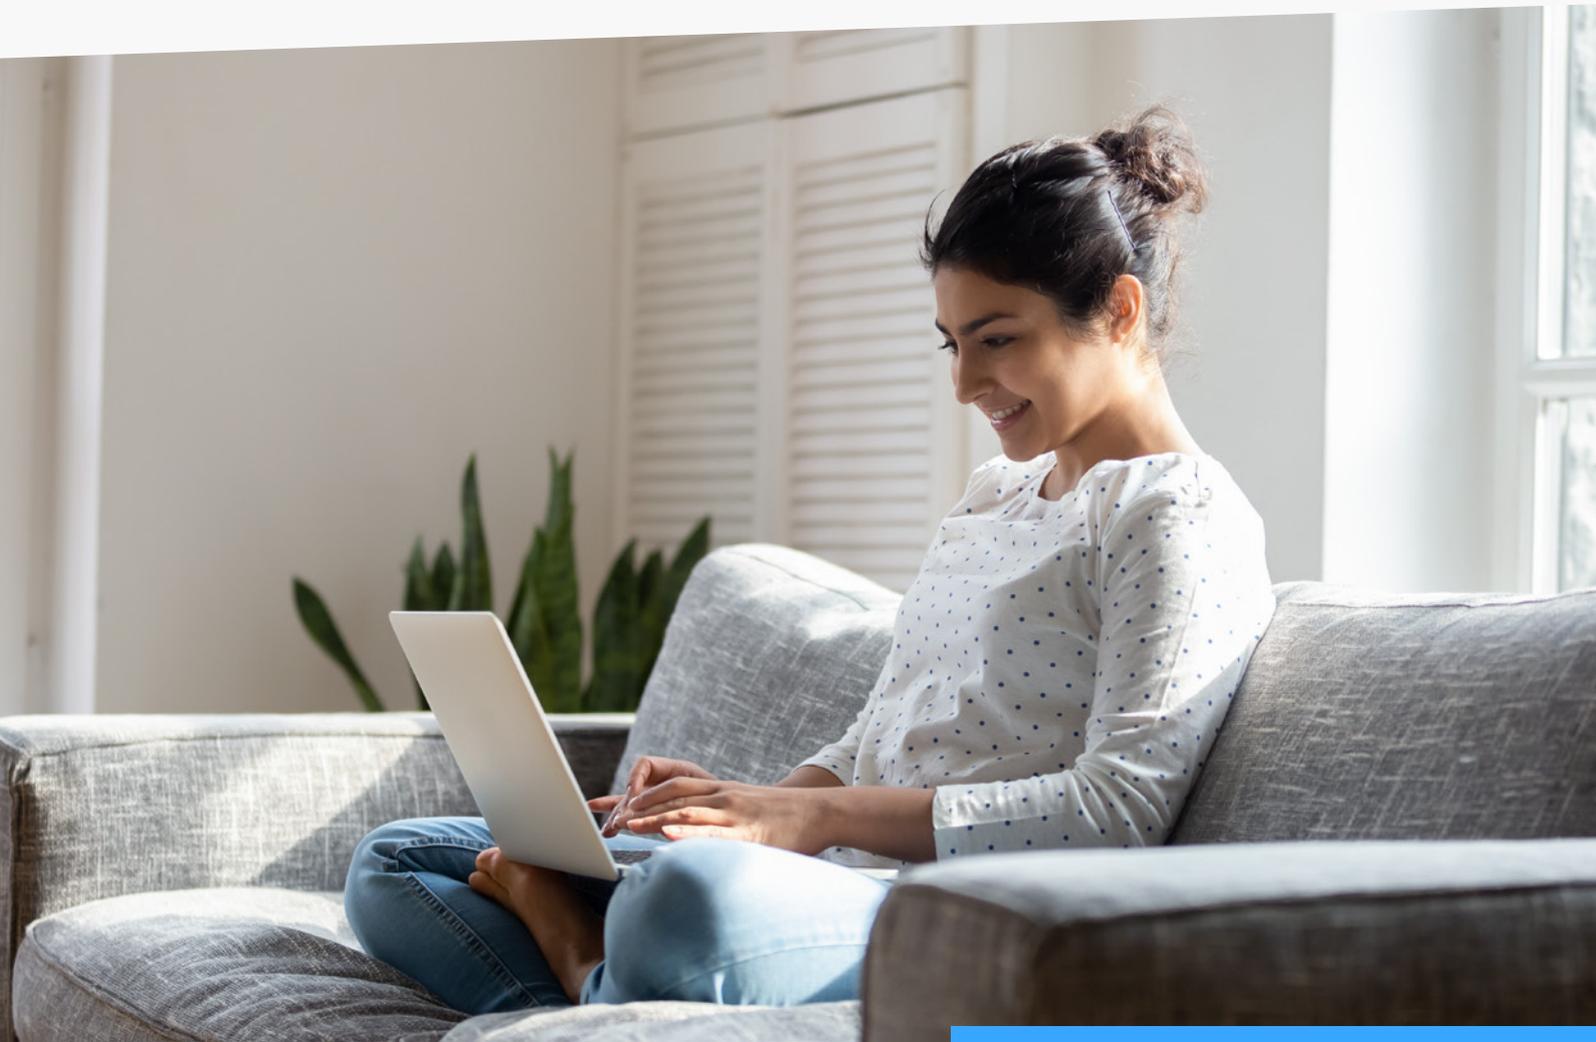

### Seamless Experience

Easy integration with enrollment tools and mobile means quicker document uploads & a hassle-free process.

# How it Works

Talview helps you reinvent your admissions process with securely proctored entrance exams, practice tests, and flexible video interviews.

# Run Online Exams With Proview Proctoring

Prior to 2020, digital convenience and full-time jobs had pushed many students to opt for online courses. Now with more universities closing their campuses due to COVID-19, secure online learning and exam taking has become as integral as course scheduling software. Universities are now in a race to build out their learning infrastructure while continuing to keep the value of their educational offerings high.

Let Talview's flexible Proview add-on help you build a stronger digital classroom.

## Why Proview for Exam Proctoring?

- ✓ **Better Detection**  
AI Facial & Voice Recognition beats human solutions for detecting impersonalization.
- ✓ **Low Bandwidth Ready**  
Proview is designed to work well in low bandwidth environments (128-512Kb).
- ✓ **Faster Experience**  
An AI-Powered Integrity Score is provided so you only review flagged students.
- ✓ **Less Intrusive**  
100% Automated Proctoring with no downloads is less intrusive and more convenient for test takers.
- ✓ **More Effective**  
AI Invigilation means the highest quality review process is performed every time to an unlimited # of users.
- ✓ **Easy Integration**  
Our plug & play integration brings our advanced proctoring features into your test engine.

## The Talview Story

Remote • Automate • Reuse

Launched in 2017, Talview's AI-powered candidate experience platform is the most efficient way to recruit and assess global enterprises and schools. Our platform is equipped with natural language processing and ethical AI technology to help organizations source, screen, shortlist, and interview candidates quickly and efficiently. Our chatbot, video interviewing, assessment, and remote proctoring solutions empower our clients to select high-quality applicants anytime, anywhere, and administer tests and exams securely. With our 100% mobile experience, you'll be able to automate routine tasks, nurture talent pools, and integrate data seamlessly into your ATS and LMS.
