TALVIEW

Talview Creates A Fast & Efficient Instahiring Process

Talview's Chatbot, Interview, and Assessment capabilities help Healthcare organizations beat hiring lag.

Why **Instahiring**

Healthcare organizations like yours face unique hiring challenges. You need the ability to:

- Find the Best Talent
- Ramp Up Hiring
- Attract Younger Talent
- Build a Diverse Candidate Pipeline
- Source, Screen, & Qualify Quickly

Why **Now**

Recently, unemployment among RNs has been as low as 1.1%. With more than half of the RN population more than 50 years old, large healthcare organizations are struggling to keep up with growing workforce demands.[1]

Why **You**

If you want to source, screen, and qualify the best candidates; ramp up hiring among younger generations; and find the best candidates, we can help.

Talview offers unique hiring solutions to help organizations like you provide a seamless, personalized candidate experience to help you source, screen, shortlist, and interview candidates with ease. [2]

Candidates can easily

- See Why You're An Employer of Choice
- Schedule Live Interviews
- Record Asynchronous Interviews
- Complete Assessments Anytime, Anywhere

Recruiters can easily

- Assess Candidate Qualifications
- Schedule Live Interviews
- Review Recorded Interviews
- Nurture Diverse Talent

Reduced Time to Hire

Reduced Cost per Hire

Improved Quality of Hire

The Talview Story

Remote • Automate • Reuse

Launched in 2017, Talview's AI-powered Instahiring Experience Platform is the fastest way to hire for global enterprise organizations. Our platform is equipped with natural language processing and ethical AI technology to help organizations source, screen, shortlist, and interview candidates quickly and efficiently. Our chatbot, video interviewing, and assessment solutions empower organizations to hire high-quality candidates anytime, anywhere. With our 100% mobile experience, you'll be able to automate routine tasks, nurture talent pools, and integrate data seamlessly into your ATS and LMS to help HR leaders focus on selecting the best candidates.
