Talview Exam Solutions

Digitize Certifications. Simply. Securely. At Scale.

Certification Exams Have Gone Digital

Too many exam solutions in the market today are legacy platforms with poor customer support. They haven't kept pace with the needs of the market, leading to significant concerns:

✓ Online certification programs are not ready for the future

✓ The intrusive nature of online proctoring prevents growth of an expert community

✓ The high cost of proctoring deters scaling programs up, particularly entry-level certifications

✓ A lack of accessibility and poor multilingual support

✓ A poor user experience and lack of quality Customer Service during the exam process is impacting their brand

> **71%** of Certification Exams Are Online, But Only **44%** Are Performance Based.
>
> **53%** Are Proctored by Staff, while **47%** Are Proctored by External Vendors.

Talview Exam Solutions

Talview's AI-led approach to exam delivery enables affordable pricing and improved security at a higher scale (even when human proctors are involved).

Talview Exam Solutions deliver a superior exam experience through an interface that is modern, multi-lingual, and accessible. The Talview Proctoring Solution is designed with technical certifications and test takers in mind.

Orchestrate everything you need to test and proctor certifications online, while providing a smooth, accessible experience and 24/7 real-time support to test takers.

Price: More Affordable

Better pricing due to higher proctor-to-student ratio attributed to the use of AI in an efficient proctoring solution. Your overall certification program cost will be much lower with Talview, enabling you to offer lower-cost certification and/or retain better margins.

Boost Exam Integrity

Multiple layers of authentication and fraud detection plus AI used in real-time to add an additional layer of security by reducing human errors. The use of AI doesn't require storing recordings and/or biometrics on any server. All the checks are done at the browser level.

Test Experience: Privacy Without Intrusion

Test takers enjoy a safe environment that is less intrusive due to primarily chat-driven interactions between the proctor and the test taker. The user-friendly technology can reduce test taker anxiety ensuring human insight is part of the proctoring process.

Easily Integrate with LMSs and Test Engines

Add proctoring capabilities to your LMS, test engine, or enrollment tool with our plug & play capabilities. No major integration work is needed. No matter the exam format – even performance-based exams are supported.
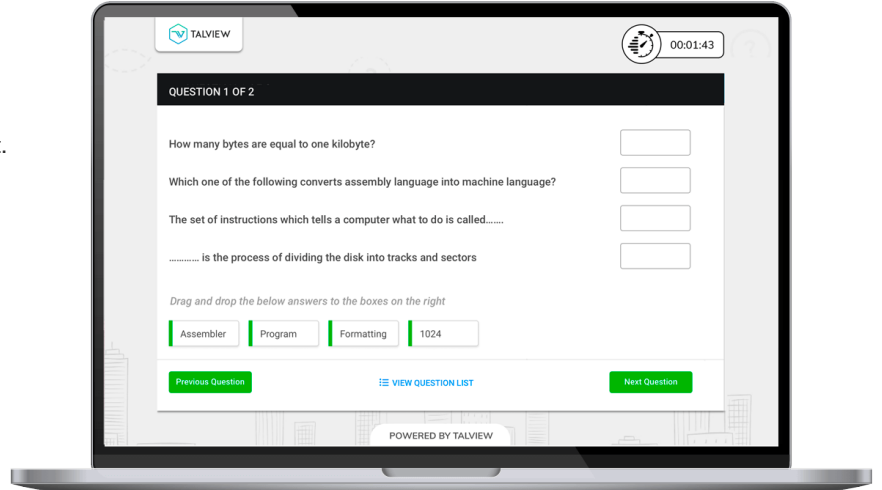

Overview of Talview Exam Solutions

Talview Certification Exam Delivery

Talview has emerged as the leader in exam delivery, combining AI with human proctoring to deliver a service that is disrupting the industry with the least amount of proctor errors, best-in-class experience, and lowest delivery cost.

Talview's highly accessible Exam Solutions are multi-lingual to ensure you are enabling everyone to take the exam online. The novel chat-driven proctor-candidate communication interface makes the entire test taker experience more empowering and less distracting.

Automate and scale your digital certifications program today to ensure a pool of skilled professionals tomorrow.

Secure and Compliant Platform

Storage of data (if required for Record & Review, etc.) can be done in specific geographies to comply with local regulations.

Watermark or lock-down exam browsers protect content IP and prevent unauthorized activities, such as screen recording, cut & paste, and more.

Add proctoring capabilities to your LMS, test engine or enrollment tool with plug and play capabilities.

Smooth Testing Experience for Test Takers

Talview Exam Solutions work on virtually any device (e.g., laptop, desktop, and mobile devices) and various operating systems, such as Windows, MacOS, Linux, Android, iOS, and Chromebooks.

Test takers can focus on the certification exam, not the technology, with 24/7 real-time phone, email, or chat support.

Expand and Scale Your Certification Services

Manage the entire online proctoring process – scheduling, proctoring, authenticating, managing test takers, sourcing live proctors, monitoring, and more – for the most complex technical certifications.

Talview makes certification exams more cost effective, less intrusive, and able to scale to meet your growing certification needs.

You can authenticate, monitor, and credential candidates and learners anywhere, anytime with a non-intrusive, modern test taker experience.
